PREMIERWORLD® *International Range*

ORLANDO

NEW INTERNATIONAL RANGE

These fountains are selected from the best in international design and aesthetics. Besides the quality of the water displays international engineering pays special attention to ensuring low maintenance through the use of durable, corrosion resistant materials. Imported lamps are used in the latest high light output, low maintenance lighting.

One of many stylish designs from the home of Disneyworld and Universal City Studios, the amusement park capital of the world.

TRADEMARKS ARE THE PROPERTY OF THEIR RESPECTIVE OWNERS

KYOTO

From the original capital of Japan and custodian of it's culture, a fountain that epitomizes serenity.

ALHAMBRA

Moorish influence made the Alhambra palace in Granada an oasis with fountains, pools and interplay of light and shade.

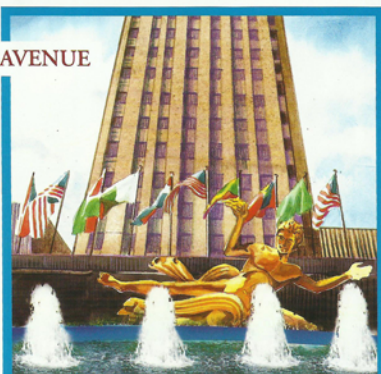

SANTA MARIA

(Cover picture)

Think of beautiful cities and Venice will be high on the list. Famous through the centuries for inimitable style and superb architecture, Venetians live on water and appreciate this lovely example of fountain design using foaming water.

FIFTH AVENUE

Rockefeller Plaza and the world's largest banks use this to flank entrances and along walkways. Discreet elegance without the risk of water splashing as with taller fountains, usually used in groups.

TORTOLA

From the Virgin Islands of the Caribbean - a cool beauty.

VERSAILLES

Louis XIV, the Sun King, commissioned fountains for his new palace of Versailles.

This represents the sun rising over the earth.
